SERVICES CATALOG

Promoting inclusive learning with digital solutions tailored for your company!

OUR TEAM

Vextur is the only Premium Moodle Partner in the Baltics and Finland, helping organizations unlock the full potential of Moodle since 2020.

We're here to help you

- ◇ Build smarter learning platforms tailored to your goals.
- ◇ Connect your systems to a seamless digital ecosystem.
- ◇ Train your people with hands-on guidance and expert support.
- ◇ Create content that inspires learners and drives results.

Whether you're training employees or educating students, we make learning simpler, smarter, and more impactful.

ABOUT VEXTUR

We offer our clients both an open source **Moodle LMS** and a commercial solution of **Moodle Workplace**. The latter is designed for larger corporate groups with more complex organizational structures.

WHY CHOOSE US?

We deliver both open-source **Moodle LMS** and Moodle Workplace - a premium platform for larger organizations with complex structures.

Our services include implementation, customization and ongoing support for organizations of any size.

1 Premium Certified Partner - the only Premium Moodle Partner in the Baltics and Finland, guaranteeing the highest level of expertise and official support.

2 Proven Experience - we've implemented and adapted Moodle for a wide range of organizations across different sectors.

3 Complete, Up-to-Date Solutions - access to the latest Moodle features, functions and product plans.

4 Global Reach - local presence in the Baltics and Finland with the ability to support clients worldwide.

Development

Vextur is your all-in-one partner for optimizing training processes with Moodle.

We work with you to design and implement customized learning solutions that help employees and students learn conveniently and flexibly. Our comprehensive services include consulting, training and content development, platform deployment (on-premises or cloud), and seamless integration with your existing systems.

OUR CLIENTS

“Moodle allowed us to fully automate the national exam process, enabling employers and individuals to take exams anywhere, anytime. This made the service more accessible to society. We are very satisfied with Vextur, who responsibly adapted Moodle to our institution’s needs.”

— State Labour Inspectorate of the Republic of Lithuania

“With the add-ons developed by Vextur, Moodle has become a real diary, where grades, attendance and the reports we need are clearly visible.”

— Modern School Centre (ŠIMC)

A NUMBER OF LEADING INSTITUTIONS AND ORGANIZATIONS TRUST VEXTUR’S SERVICES:

OUR PLUGINS

As a **Premium Moodle Partner**, we not only deliver full platform services - installation, maintenance, and support - but also create custom plugins that **extend Moodle's functionality, simplify management, and improve the learning experience.**

LEARNING NEWS

Provides Moodle users with up-to-date information on training, institution news, upcoming events and other announcements.

USER HOURS

Tracks the number of hours users spend training, both inside and outside the Moodle environment.

DATA UPLOAD QUOTA

Monitors file sizes and available storage space for each user. Allows administrators to track server capacity, as well as the size and number of files uploaded per user.

DELETE / SUSPEND USERS

Helps organizations comply with GDPR by automating the deletion or suspension of user accounts once retention periods expire.

360° EMPLOYEE EVALUATION

Offers a comprehensive way to assess and monitor employee progress, including time-bound goal setting, performance feedback and personalized focus areas.

MY TEAM

Enables managers to monitor their team's progress, view selected reports and send direct messages. Typically used in the main system window to simplify team management.

TRAININGS REGISTRY

Allows managers to create and manage registrations for external training courses or events, with options to approve or reject requests.

READ & SIGN

Simplifies document approval by allowing you to upload, assign and prioritise documents. Mandatory reading time, smart filters and automated notifications ensure transparency and faster sign-offs.

VEXTUR CART

Enables selling and purchasing courses directly in Moodle. Add courses for sale with a price, image and description. Supports payments by BankLink or credit card (requires bank integration).

OUR PLUGINS

COURSE LIBRARY

Displays course categories directly on the user's dashboard. Shows visually attractive category images so learners can navigate more easily than in a single long course list.

DOCSIGN

Lets users approve documents with a system (or qualified digital signature at course level. Approved documents are marked with a digital stamp (user, date, time). It can also confirm plain text and apply a watermark to signed documents.

BOOKING SESSIONS ACTIVITY

Allows managers to register users for sessions and record attendance at training courses (lectures, lessons). Works within specific courses and is compatible with both Moodle LMS and Moodle Workplace.

ORGANISATION STRUCTURE

Groups employees by departments, positions or jobs to simplify course enrollment and allocation based on job roles.

RECURRING ENROLLMENT

Automatically enrolls learners into the next chosen course after a set period, ensuring a smooth training journey and reducing administrative work.

AUTHENTICATION

Lets users log in to Moodle through external identity providers (SSO) - no separate accounts needed. Custom plugins can be built for your organization (e.g. VIISP, EPDS, SMS, TARA).

HAILEY HR

Synchronizes employee data between Hailey HR and Moodle, automatically updating users, roles and access rights to cut manual admin.

COURSE OVERVIEW

Lets users view enrolled courses, track completion progress, and navigate easily. Multiple dashboard blocks can be set up to organise courses more efficiently.

AUTO-COHORT EN- ROLL

Automatically groups users into cohorts based on profile fields, simplifying enrolment and course management.

EMPOWER EVERY LEARNER.

BUILD INCLUSIVE LEARNING WITH US!
